Experience

SENIOR PRODUCT MANAGER, MICROSOFT; REDMOND, WA - 2022-PRESENT

I am a PM within the Microsoft Security Division, focused on helping customers implement, adopt, and scale their Microsoft Entra and Azure AD deployments. My focus is on helping large Fortune 500 customers develop and execute on identity and access management roadmaps and strategies and assist Identity Business Units achieve their business goals around incubation of new products. I also work with customers and Microsoft developers to gather feedback on Microsoft's products and use that feedback to drive the future direction of the engineering process.

I have extensive speaking experience at public conferences, especially with a focus on macOS and iOS identity security. I've spoken at JNUC, Identiverse, Objective by the Sea, and other conferences on macOS and identity security most recently.

PROGRAM MANAGER 2, MICROSOFT; REDMOND, WA — 2019-2022

MANAGING ARCHITECT, CONCURRENCY, INC.; MILWAUKEE, WI — 2018-2019

My primary responsibility was to consult for Concurrency's various customers. Most of my projects focused on Office 365, tenant to tenant migrations, and EM+S security projects. This included Exchange Online, Teams, Skype for Business Online, Azure AD, MFA, Conditional Access, Microsoft Information Protection, Microsoft Cloud App Security, and Advanced Threat Protection. I also have experience working on Active Directory Domain rename projects, Active Directory Federation Services, Skype for Business Server, telephony, Exchange Server, System Center Configuration Manager, and general Windows Server related projects. Other tasks delegated to me included supporting Concurrency's customers when they encountered problems or experienced outages and with internal team management. I typically managed up to 5 direct reports at a time, ensuring they were engaged and delivering successful projects, while also following training plans.
